SUMMARY

Frontend Developer with 3+ years of experience building scalable, responsive, SEO-friendly web applications using React.js, Next.js, JavaScript, TypeScript, and REST APIs. Experienced in improving application performance, optimizing Core Web Vitals, developing reusable UI components, and integrating APIs to deliver maintainable, production-ready solutions. Strong focus on performance optimization, responsive design, accessibility, code quality, and user experience across modern web applications.

TECHNICAL SKILLS

Core Web Vitals | Caching & Revalidating | System Design | React.js | Next.js | Javascript | Typescript | RAG | Playwright | Node.js | Express.js | Git | GitHub | Vercel | Postman | Redux | Payment Integration | REST APIs | Performance Optimization | SEO | SSR/SSG

PROFESSIONAL EXPERIENCE

Frontend Developer 07/2024 – 09/2026
Bytequest Softwares - 011bq [🌐](#) Noida, Uttar Pradesh

- **Architected and maintained** high-performance React.js and Next.js applications serving thousands of users, with a focus on responsiveness, SEO, and production reliability.
- **Reduced page load time by 35%** through code splitting, lazy loading, and asset optimization.
- **Created 40+ reusable React components**, reducing UI duplication by 25% and accelerating feature development.
- **Boosted Lighthouse performance from 62 to 91** by optimizing JavaScript bundles, images, and loading strategies.
- **Shipped 20+ production features** across multiple releases, collaborating on implementation, testing, and deployment.
- Resolved **50+ production issues** and reviewed **20+ pull requests** across React/Next.js applications, reducing recurring defects by 25% and improving release stability.

PROJECTS

Zaprep [🌐](#) 07/2026 – 09/2026
Instagram Automation & Engagement Platform

- **Engineered a centralized billing module** integrating Razorpay, Dodo Payments, and Stripe, standardizing payment workflows and reducing integration complexity.
- **Implemented reusable payment, subscription, checkout, refund, cancellation, and webhook workflows**, standardizing billing operations across 3 payment providers.

PoweredByAI [🌐](#) 10/2025 – 07/2026
PoweredByAI is an AI-powered web platform.

- **Optimized PoweredByAI frontend architecture and rendering pipeline, improving application performance by 35%** through caching, code splitting, lazy loading, and asset optimization.
- Built and shipped **10+ AI-powered features** and API-driven workflows, implementing authentication, search, and analytics to improve **platform usability, scalability, and reliability by 20%**.

EnvioByte [🌐](#) 07/2025 – 10/2025
A sustainability and emissions reporting platform.

Developed **interactive sustainability and emissions dashboards** using React.js and Next.js, improving **reporting efficiency by 30%** through reusable UI components and scalable data-visualization interfaces, while enhancing **maintainability and user experience**.

EDUCATION

Online Full-Stack Course 06/2023 – 05/2024
Sharpenr Tech Bangalore

B.E. - Electrical & Electronics Engineer 08/2019 – 05/2023
Sir M. Visvesvaraya Institute Of Technology Bangalore

SOFT SKILLS

- Technical Communication
- Cross-functional Collaboration
- Ownership & Accountability
